Once, the city of Savannah was just pine trees, deer, eagles, snakes and Indians. They were Yamacraw Indians in deerskins and turkey feathers. Tall and elderly was Tomochichi, their wise chief.

One day, strangers sailed from England to settle here. Their leader was young James Oglethorpe. How strange these pale-faced people seemed. They wore heavy clothing, and talked strangely.

Would there be fighting? Bows and arrows? Guns? No! Soon Oglethorpe and Tomochichi were friends. Oglethorpe took the old chief back to London to meet King George and Queen Caroline. Six years later, Tomochichi died. Oglethorpe helped carry his body to be buried. Oglethorpe missed his friend.

Years later, Daisy's mother, Nellie, said something like this to the Colonial Dames... We must have an important marker for Tomochichi's grave. I will write to the good people of Stone Mountain where they sell stones.

A letter came back saying something such as... Madam, your boulder is on the way. Your bill is \$1, payable on Judgment Day.

Mrs. Gordon wrote back enclosing a dollar saying... she'd be much too busy on Judgment Day to pay bills!
